 Open virtual tour to recreate with a ballpoint pen – you can use any colour you like!
- What kinds of shading and lines can you try?
- Don't worry if you make a mistake – mistakes are how artists grow!

Draw the same artwork three times:

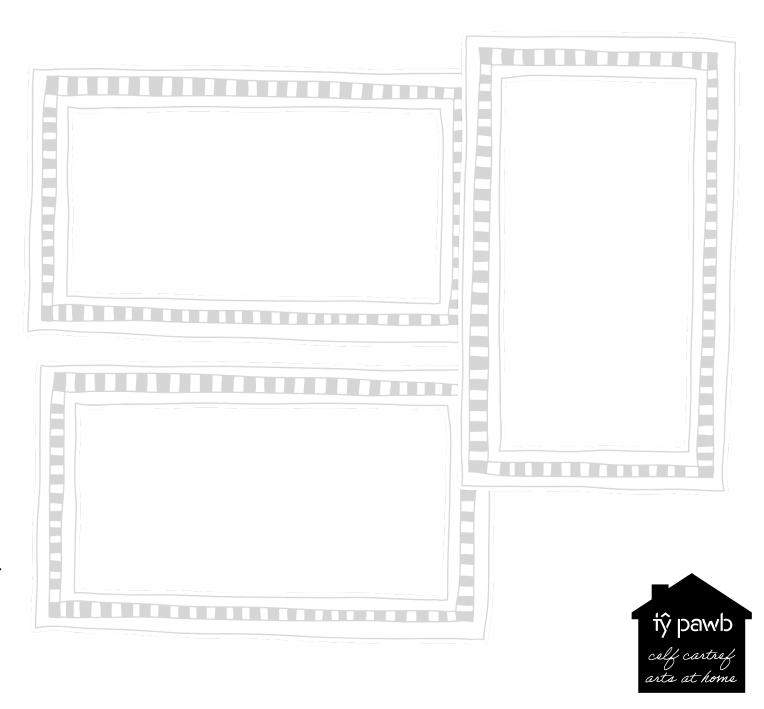

- 1. Draw your first version as one continuous line – don't take your pen or pencil off the paper!
- 2. Draw your second version just using dots – be gentle if you're using felt-tips!
- 3. Draw your third version without looking down at your paper – just look at the artwork while you draw!
- Which one is your favourite?

Draw with a different part of your body!

- You can either choose a new artwork, or stick with the same one.
- Experiment with using different parts of your body to draw!
- You could try
 holding your pen
 in the crook of
 your elbow, in the
 hand you don't
 normally use or
 even between your
 toes!

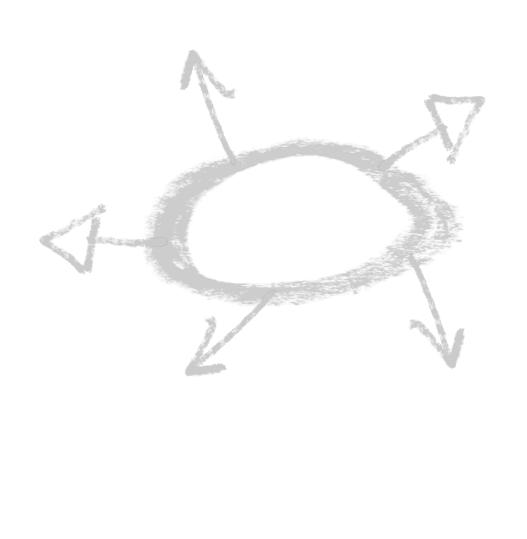

Choose an artwork and draw a mind map about how it makes you feel.

You could include:

- Emotional words
- Memories that the artwork reminds you of
- Shapes that express your feelings about the artwork – remember that they don't have to be positive feelings!
